

**We want to
secure a
better future,
for you, your
family and
Britain**

 **Conservatives**

**A Britain where people have the security of owning
their own home and the financial independence to
enjoy retirement**

- ✓ **Tax on pension pots abolished**, so people who have worked hard and saved all their lives can pass more of their hard-earned money on to their families.
- ✓ **100,000 new good quality homes**, 20% cheaper and reserved only for first-time buyers under the age of 40.
- ✓ **10,000 new affordable homes** available at below market-rent so people can save up a deposit to buy their first home.
- ✓ Councils working to make land available for people who want to **build new homes** for themselves.

A Britain where hardworking families have the reward of a meaningful job and a decent standard of living - because their taxes are low and our debts are being paid off

- ✓ The **tax-free personal allowance increased to £12,500** and the threshold for the 40p tax rate lifted to £50,000 – cutting tax for 30 million hardworking taxpayers.
- ✓ **Three million new apprenticeships** to help more young people get a good job.
- ✓ The **deficit eliminated by 2018**, so we have a stronger, healthier economy for the long-term.
- ✓ All tax cuts and **spending commitments paid for** – not funded with more borrowing.

A Britain where people who work hard and do the right thing can get on in life, with access to good services and a decent quality of life

- ✓ More **support for GPs** to expand access for their patients - so everyone has access to a GP seven days a week by 2020.
- ✓ All **working-age benefits frozen** for two years, so benefits aren't rising faster than wages and it always pays to work.
- ✓ The **benefit cap lowered** from £26,000 to £23,000, so that people cannot claim more in benefits than most earn in work.
- ✓ All young people unemployed for more than six months having to either be in training or work for their benefits - "**earn or learn**" - and not able to claim Housing Benefit to leave home.

A Britain where our economy has stability and people aren't afraid of losing their job, their home or their savings

- ✓ The **deficit eliminated by 2018** and all tax cuts and spending commitments paid for – not funded with more borrowing – with £25 billion worth of savings from an efficient and effective government.
- ✓ Abusive **zero-hours contracts abolished**, so people are certain about their jobs and the future.
- ✓ **Tackling offshore corporate tax avoidance**, so big multinationals pay their fair share.

A Britain with an education system that helps our children reach their potential and succeed in life

- ✓ Every child in a **good local school** where they learn the skills, experiences and key subjects that they need to prepare them for life in modern Britain.
- ✓ 363 **new Free Schools** open or in the pipeline, delivering 200,000 new high-quality school places.
- ✓ A new skills college to ensure that we have locally-trained workers with the right skills to draw upon for the construction and operation of HS2, and the **400,000 jobs and 2,000 apprenticeships** that come with it.

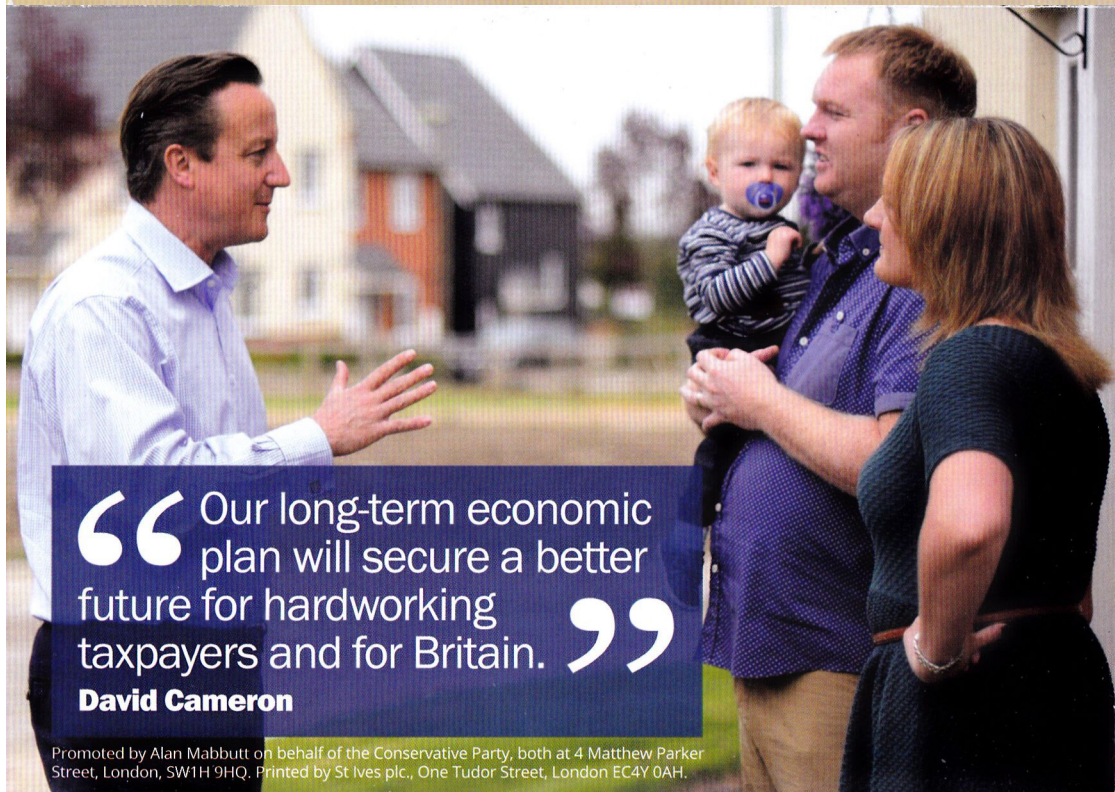

Keep up to date with our plan to secure a better fu

And a Britain that stands even taller in the world, a stronger country, a prouder nation

- ✓ A **new extremism strategy** – building on our counter-terrorism strategy – to protect our fundamental British values of freedom of speech, democracy and equal rights.
- ✓ **Controlled borders** and an immigration system that puts the British people first.
- ✓ **A new deal with the EU** – bringing power back to Britain and away from Brussels – then the British people making the final decision at an in/out referendum in 2017.
- ✓ Scrap Labour's Human Rights Act and pass **a new British Bill of Rights and Responsibilities** – rooted in our values, passed in our Parliament.
